

UP VANGUARD COVID-19 RESPONSE

Week 1: 23–29 March 2020

Assistance to UP Diliman Dormers

Beginning March 23, brunch and dinner meals were delivered to UP Diliman dormers everyday. Two washing machines were lent to Ipil and Centennial dormers, while laundry supplies were delivered to Kalayaan and Sanggumay dormers.

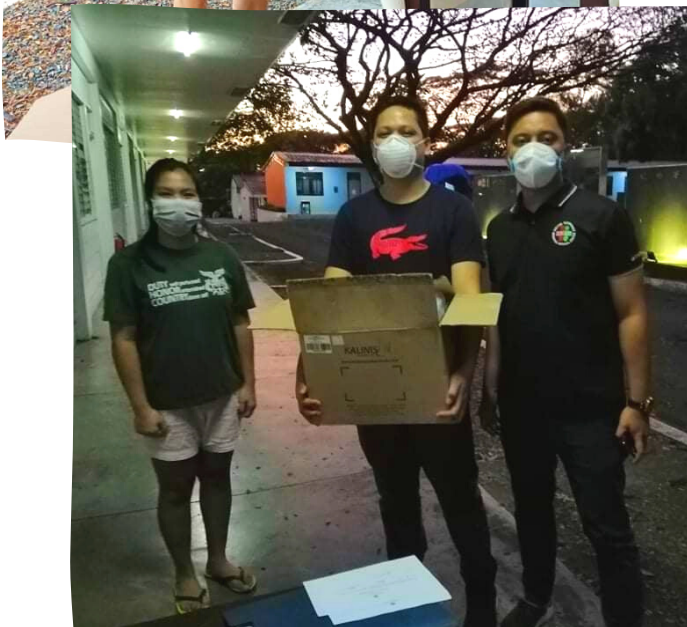

PPE Procurement

The initial procurement of 800 isolation suits, 400 hazmat suits, and 400 face shields is in the pipeline.

1,000 pieces of surgical masks were donated to our cause by Mr. Leon Ang, a friend of the National Commander.

500 of which have been picked up by personnel from Amang Rodriguez Memorial Medical Center.

Assistance to UP Los Baños

200 personal hygiene packs are slated to be distributed to brods, cadet officers, and students, the first batch of which have been distributed to brods and COs in the DMST.

Brods and COs attended a workshop on DIY protective face shield-making, lead by Dr. Patricia Sanchez, Professor from the School of Environmental Sciences and Management.

An initial target of 500 DIY face shields will be made for the University Health Service, security personnel, and food distributors on campus
